👤 PROFILE

Android developer with 4 years of working experience developing android applications in travel, e-commerce, recharge and payments domains. Skilled in Android SDK, Kotlin, MVVM architecture, Android architecture components, Android Jetpack, Android webview, Material Design. Every day I learn new stuff to be on top of Android technologies and best practices. Enthusiastic about taking challenges and solving complex problems.

📁 EMPLOYMENT HISTORY

Senior Software Engineer(Android) at Paytm, Noida

July 2020 — Present

Paytm Mini Apps

- Developed custom android SDK for Payment Mini Apps, which is used to run multiple apps for merchants as well as internal components inside Paytm.
- Developed android SDK using Kotlin, MVVM architecture, Retrofit, constraint layout, Android webview.
- Developed features like logout, email population, QR code scan api for external merchants, domain access control to provide security while browsing mini app.
- Worked on scoped storage feature for paytm mini apps along with performance improvements.
- Handle release independently along with PR reviews.

Software Engineer(Android) at GlobalLogic, Noida

June 2019 — June 2020

Kohl's App

- Developed some features of US based E-Commerce application. Worked on wallet screen of the app to show offers and Gift cards.
- Worked on Product Details Screen by creating separate UI components as custom views like carousel, breadcrumbs, bottom sheet etc.
- Developed every feature using KOTLIN, ANDROID MVVM Architecture and JETPACK library with kotlin coroutines and retrofit.

Software Engineer(Android) at Tek Travels Pvt Ltd., Gurgaon

June 2017 — May 2019

TBO Holidays DMC APP

- Developed app from Scratch using MVVM architecture and Android Jetpack.
- Integrated Firebase for push notifications.

Roamer App

- Travel based app which acts as E-Travel pocketbook by showing travel bookings and creating an itinerary. Integrated Google Analytics/Firebase inside app.
- Implemented hotel image gallery feature and weather forecast feature.
- Developed features of the app using JAVA, Android Architecture components and material design.

🎓 EDUCATION

B.Tech Computer Science, Indraprastha College for Women, University of Delhi, Delhi

July 2013 — May 2017
